TIPS & TECHNIQUES

GUTTER SHELVEING

Inexpensive vinyl rain gutters provide convenient, surprisingly strong storage for molding, lightweight lumber, pipes, and long thin items. To install, just screw the mounting brackets to studs and snap in the gutters. You can use the brackets alone for garden hoses, extension cords, and wire coils.

STAND UP STORAGE

Fill a sturdy cardboard box with sawed-off shipping tubes (or scraps of large-diameter PVC pipe) and use it to organize short pieces of molding, pipe, and dowels.

SANDING TIPS

Sandpaper is usually stiff and brittle making it tough to fold and likely to leave scuff marks on the work surface. To make the paper more flexible, pull it with the grit side up back and forth over the edge of a table or workbench.

Sandpaper will curl up and crack if it is left lying around. To keep it from curling, place a weight on it or store the paper in the freezer so that heat and humidity won't affect the adhesive holding the abrasive to the paper.

We've gone Moen!

Come on over and check out our new line of Moen faucets! Moens are terrific faucets. They're well built and come in a number of attractive, contemporary styles!
