

Slip Slidin' Away

Wet & Forget

Wet & Forget Moss, Mold and Mildew Stain Remover is a revolutionary new product from New Zealand that provides an *easy* and *labor-saving* way to get rid of our area's ubiquitous moss, mold and mildew. This product is a unique combination of biodegradable selective surfactants that can be used on any exterior surface.

When properly diluted with water and applied with a sprayer, it immediately attacks moss, mold and mildew with results becoming apparent in 1 to 2 weeks. Each time it rains, this safe, cleansing combination reactivates and continues to work for up to a year to help flush moss, mold and mildew without any damage to the surface.

Safer Moss & Algae Killer Ready to Spray

Safer Moss & Algae Killer is a ready-to-use out of the bag. Just attach it to a garden house, and turn on the water. The built-in sprayer mixes the right amount of water to product ratio to get rid of moss and algae on decks, fences, roofs and lawns. It is non-staining and works wonderfully on wooden decks too! Each 32 ounce bottle can treat up to 500 square feet.

Safer's formula also breaks down quickly and will not harm plants if used as directed.

Sprayway Time!

After months of "hibernating", film builds up in our window panes. And there's no product that cuts through the film as **Sprayway!**

Sprayway is by far the best glass cleaner we've ever used. It cuts through film like a hot knife cuts through butter. It leaves your windows and mirrors sparkling clean and clear!

Sprayway comes in a 19 oz spray can. It contains no ozone-depleting chemicals, window-cleaning goodness!

Mighty Mite

Eureka's **Mighty Mite** canister vacuum cleaner packs one big punch in one small 8 pound package.

Powered by a hefty 9 amp motor, the Mighty Mite sucks up dirt with surprising ease. It has an entire complement of onboard tools (including a carpet nozzle with dual edge cleaning for use on bare floors or carpet, a crevice tool, a combination dusting brush and upholstery tool), two extension wands for cleaning hard to reach places, and a 7 foot crush resistant hose with suction control. The Mighty Mite also comes with an extra long 20 foot power cord which conveniently wraps around a quick release lever under the body for quick easy accessibility. It has large rear wheels for maximum stability and it's slender size guarantees that it will fit easily on most stair steps.

Last and definitely not least, the Mighty Mite comes with a blower port so you can easily convert this little monster into a blowing machine too!

With so much wrapped into one package, it is no wonder this amazing product is called the Mighty Mite!

The Mighty Mite takes a Style MM replaceable bag.

TIPS & TECHNIQUES

SAVING YOUR DEICERS TILL NEXT YEAR

All signs seem to point towards putting our deicers and snow shovels away for the season. To keep your deicers from clumping, mix a few lumps of charcoal into the bag or the container. The charcoal soaks up the dampness and prevents the deicer from caking

GET THE GUM OUT!

To minimize resin buildup when you saw through resinous softwoods such as pine, spray silicone on the teeth of your saw. Or try polishing them with a hard paste wax or running a bar of soap across the teeth. If you already have gummy resin buildup on your saw, you can clean it with oven cleaner (wear gloves!). Saws treated this way should not be used for finished pieces.

PADDED JAWS

There are occasions where you need to use a pair of pliers on an easily scratched surface (i.e. brass, chrome, etc.). Pad the jaws of your pliers with the fingers of an old leather glove! Cut off the fingers and slip these "sleeves" over the jaws.

Paint Mildewcide Additive

- Inhibits mold and mildew on interior and exterior paint
- Blends easily with standard latex or oil paint
- 1 pack treats 1 gallon
