It's Yellow Jacket Season!

With summer winding down, yellow jackets are getting really ornery and stinging anyone that gets in their way.

The **Wasp, Hornet & Yellow Jacket Killer** is a commercial formula that takes care of these pests on contact. It even reaches nests that are 20 feet above ground, ensuring that you can stay a safe distance away while applying it. This product can be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors on their nests.

1.5 oz. aerosol can

2⁹⁹

Wasp Killer
05500212
Reg. \$ 3.49

- 14 ft. ribbon with mounting hardware included

2⁹⁸

Fly Trap
05745215
Reg. \$ 4.49

TIPS & TECHNIQUES

ANOTHER CARPET STAIN REMOVAL TIP

Spray a mixture of 1/4 vinegar to 3/4 water to the area. Lay a damp terry cloth towel over it. Iron over the towel with an iron on its steam setting. This technique can potentially remove months old stains so give it a try!

INEXPENSIVE ROOM DEODORIZERS

To deodorize a room, try leaving a bowl of vinegar in the room overnight. The room should be deodorized when you get back. If not, try leaving bits of charcoal around the room (in open containers, of course!). Charcoal also absorbs odors.

To de-stink sofas and other upholstered furniture, ApartmentTherapy.com recommends sprinkling baking soda and leave for as long as you can, and then vacuum. Be sure to keep your furniture away from the sun because baking soda may bleach it.

Fusion for Plastic

- Makes painting plastic possible
- Bonds easily to most plastics, PVC, resin and more
- Fast dry; fully chip resistant after 7 days
- Use on wood, metal, wicker, wrought iron, plastic, hard vinyl, glass, plaster, ceramic, paper, paper maché.
