TIPS & TECHNIQUES

CAULK CAP

Seal off a partially used caulking tube with a plastic electrical connector (a wire nut). The wire nut makes it easy to seal and later to reopen the tube.

PAINT FILTER

A clean disposable paper dust mask makes a perfect substitute if you run out of paint filters for removing impurities from thinners and light finishing oils.

LEVEL VERSUS PLUMB

"Level" simply means parallel to the earth's surface; "plumb" means straight up and down (perpendicular to the earth's surface).

OILY HANDS

Your hands secrete natural oils that can mark unfinished wood prior to finishing. Try rubbing sawdust between your hands to remove any excess oil!

HOMEBREW TOILET BOWL CLEANER

This will remove all but the toughest stains. Mix ¼ cup baking soda, ¼ cup liquid detergent, ¼ cup warm water. Mix these together in the toilet bowl and let it soak for as long as you want. Or you can immediately swish it around with the toilet brush before flushing.

Bedbug Spray
