TIPS & TECHNIQUES

STRIPPED SCREWS & RUBBER BANDS

All hope is not lost if you have a stripped screw. Try placing the flat part of a wide banded rubber band over the screwdriver tip and the stripped screw head. The rubber may provide enough extra grip to prevent the screwdriver tip from slipping.

STORE PAINT CANS UPSIDE DOWN

A paint can stored upside down creates an absolutely airtight seal which will make it last longer. Be certain that the lids are sealed tightly though!

WD40 REMOVES CRAYON MARKS

WD40 removes crayon marks from glass and plastic. It also removes gum from carpet (try in a hidden area first to make sure the color doesn't run). And it's great for removing those sticky price tag decals off products!

Tri-Flow Lubricant
